INSTALLATION

▲ CAUTION

- To prevent burns, allow the engine, exhaust system, radiator, etc., to cool before installing the accessory.

NOTE:

- Disconnect the negative (-) cable from the battery before installing this accessory.
- The memories clock memory will be erased when you disconnect the battery. Reset the memories after reconnecting the battery.
- Reinstall the removed parts on the motorcycle and make sure that the wires and harnesses are not pinched.
- Trim the excess ends off the wire ties after attaching them to the wire harnesses. Do not allow the cut part of the wire tie to interfere with another harness or brake hose.
- For installation of CB radio and CB passenger switch, refer to the installation instructions for the each accessory.

- Open the left saddlebag lid as shown.

- Repeat on the right side.**
