

INSTALLATION

UNIVERSAL THROTTLE BOSS

6251

FITS: MOST THROTTLE TWIST GRIP APPLICATIONS, 7/8" OR 1" BARS

| PART# | INCLUDED |
|--------|---------------------------|
| 406251 | 1 Universal Throttle Boss |
| 306251 | 1 Instruction Sheet |

TOOLS SUGGESTED

No tools are required for this installation

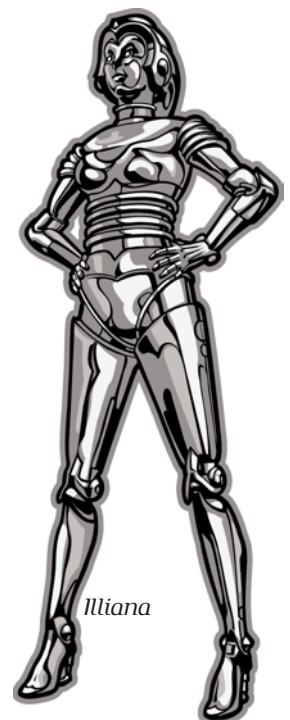

PROCEDURE AVERAGE TIME: LESS THAN ONE MINUTE

STEP 1 Stretch the Rubber throttle boss around the throttle grip and hook the loop in one end over the "Nub" on the other. The flat portion of the throttle boss should be facing upward, so ones palm can rest on it.

STEP 2 While firmly holding the twist grip so it cannot move, rotate the Throttle Boss to a position that is comfortable to you when the throttle is set at cruising speed.

WARNING: Do not attempt to adjust the position of the throttle boss while operating the motorcycle! Sudden changes in speed may occur causing loss of control of the vehicle, resulting in injury or death.

Ride On!
