

# INSTALLATION

## TURNDOWN EXHAUST EXTENSIONS 7606

FITS: GL1800

PART#	INCLUDED
607606EL	1 Chrome Turndown Extension – Left
607606ER	1 Chrome Turndown Extension – Right
907604	1 M-6-1.0 x 12mm Hex Flange Screws (set/6)
307606	1 Instruction Sheet

### TOOLS SUGGESTED

1/4" Drive ratchet with 8mm and 10mm sockets, 6mm Allen wrench

### DANGER!

To avoid the possibility of burns, allow the engine and exhaust system to cool thoroughly before installation.

### PROCEDURE AVERAGE TIME: 20 MINUTES

**STEP 1** Put the bike on the center stand and remove the stock exhaust tips. The three fasteners securing each tip are located on the bottom and inboard sides of the tips.

**STEP 2** Slip the Kuryakyn Turndown Extensions onto their respective mufflers. Loosely install the M6-1.0 x 12mm Hex Flange Screws using the existing mounting holes.

**STEP 3** Align the tips. There is usually enough play in each extension's mounting holes to rotate them into alignment. If for some reason the tips do not afford enough adjustment, loosen the clamp that secures the muffler to the head pipe and rotate the entire muffler body. Once properly aligned, tighten all fasteners securely and wipe off the extensions and mufflers.

*Ride On!*
