

1415 S. Cherry Ave. Tucson AZ 85713 – 1-800-358-0881

Installation Instructions

Part# FSPU-GL06-XT

Performance XT Speaker Upgrade for 2006 & Later GL-1800

1. Remove the speaker grille/dash cover assembly by carefully lifting on both sides of the cover just behind the ignition switch. As you remove the cover assembly from the fairing, disconnect the wiring plugs from both the left and right grill mounted tweeters and the one below the ignition switch.
2. Remove the factory speakers from both the left and right sides and replace them with the larger diameter J&M upgrade speakers using the original screws.
3. Reinstall the speaker grille/dash cover assembly as you reconnect the wiring to both of the grille mounted tweeters and the electrical plug located in front of the ignition switch assembly.

Thank you for the confidence you have shown in J&M Corporation by purchasing one of our innovative products.
